MEMORANDUM FOR See Distribution

SUBJECT: Delegation of Formerly Utilized Sites Remedial Action Program
Reprogramming Authorities

1. Reference. ER 11-2-201, Civil Works Activities - Funding, Work Allowances, and Reprogramming, dated 31 August 1995.
2. Referenced ER provides both general and specific guidance regarding the reprogramming of Civil Works work allowance. The general guidance in the ER 11-2-201, 6 a., applies equally to the reprogramming of Formerly Utilized Sites Remedial Action Program (FUSRAP) work allowances. The purpose of this memorandum is to provide the specific reprogramming guidance applicable to FUSRAP.
3. The Appropriations Committees have agreed that the Corps may reallocate work allowances among FUSRAP projects in accordance with congressional direction for the reallocation of Construction, General work allowances. This congressional guidance is captured in the enclosed draft new Appendix G, to ER 11-2-201, which, pending approval of a revised ER 11-2-201 incorporating FUSRAP, defines your authority to reallocate work allowances between FUSRAP projects. Note that there is no limitation on the amount which can be reprogrammed out of a project.
4. You are also authorized to restore work allowances which were revoked as a result of a nonfunding delay, without regard to percentage limitations contained in draft Appendix G, when the problems causing the delay have been resolved. In addition, since it is not a reprogramming, you may reallocate work allowances between phases on a single project, also without regard to a percentage limitation.
5. It is incumbent upon you to apprise affected congressional delegations of any planned reallocations between projects. Furthermore, you should immediately report all FUSRAP
